

## Perilous Adjectives

You are trapped in the Place of Peril. It is full of quicksand – the only way to reach the fence is across the steppingstones. But you must only use stones with a similar meaning. Draw a line from the start to any of the nearest stones. Then draw a line from that stone to the next stone with a similar meaning. Keep going until you reach safety across the fence.

Then work out other routes using different starting stones. You also might like to colour in the stones using the same colour for stones with similar meanings.
